## *Mortgage Meltdown: THE MUSICAL*

BY EVE SUTTON

Come to a reading of selected acts from this **educational musical** written by a woman who has lived, fought, and barely survived a 5-year battle with foreclosure. Eve knows every cause and effect leading up to the 2008 mortgage crisis and has lessons and warnings applicable today, as Wells Fargo and other big financial organizations slink into their next scandal.

It would be so helpful to us if you are a high-school or college student to attend this session. Eve needs your perspective as she shapes her play.
